

## ABOUT ROME

Rome, the “eternal city”, is so called because it is a place of great beauty, contrast, and life. Rome is an eclectic city: the religious world center of the Catholic Church, the fabulous ruins of the center of the Roman Empire, and modern, bustling Rome. All three seem incongruous, yet they live inside and beside each other with great ease. You will soon realize that Rome was built to rule and dominate the world. Everything is on a massive scale, solid and “eternal”.

Rome, Italy’s capital is a sprawling, cosmopolitan city with nearly 3,000 years of globally influential art, architecture and culture on display. Ancient ruins such as the Forum and the Colosseum evoke the power of the former Roman Empire. Vatican City, headquarters of the Roman Catholic Church, has St. Peter’s Basilica and the Vatican Museums, which house masterpieces such as Michelangelo’s Sistine Chapel frescoes.
