

INTERNATIONAL CONFERENCE ON

# **Cutting Edge Materials Research and Nanotechnology**

JUNE 08-10, 2020 BARCELONA, SPAIN

# **Confirmed Participants**

Note: The speakers listed here are confirmed and more profiles need to add

# Keynote Lecture

**Title:**

Wide band gap semiconductor nanomaterials for novel optoelectronic devices

**Bianchi Mendez**

Spain

<https://frontiersmeetings.com/conferences/materialsresearch/keynotes/Bianchi-Mendez>

# Keynote Lecture

## Title:

Innovatively surface-engineered  
maghemite nanoparticles towards  
original effective anti-leishmania  
bioactivity

**Jean-P Lellouche**

Israel

<https://frontiersmeetings.com/conferences/materialsresearch/keynotes/Bianchi-Mendez>

# Keynote Lecture

## Title:

Synthesis and characterization of polymer membranes embedded with nanoparticles for water filtration

**W. Richard Chung**

United States

<https://frontiersmeetings.com/conferences/materialsresearch/keynotes/W-Richard-Chung>

# Workshop

## Title:

Smartelectrodes: Electrochemical approach to design and analyse multiscaled electrodes

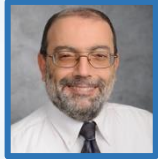

**Henrikas Cesiulis**

Lithuania

<https://frontiersmeetings.com/conferences/materialsresearch/speaker/Henrikas-Cesiulis>

# Speaker Panel

Influence of moisture and temperature non-uniformities on deformation and stresses produced in materials  
**Barry Hojjatie, United States**

Nanocarrier toxicity control for effective siRNA/microRNA gene/delivery silencing applications  
**Jean-Paul Lellouche, Israel**

Amelioration of optical and electrical properties of thin films for low cost solar cells, after ruthenium incorporation  
**Beya Ouertani, Tunisia**

Nanomaterials for drug detection and delivery

**Ken C F Leung, Hong Kong**

Electrodeposition of multifunctional materials: Tungsten and molybdenum alloys  
**Natalia Tsyntsaru, Lithuania**

Atomic layer deposited gallium and zinc oxide layers

**Zsófia Baji, Hungary**

<https://frontiersmeetings.com/conferences/materialsresearch/speakers>

**interested to join the panel**
